

## EQUAL FRACTIONS

KS1 – 2016 Paper - Reasoning

1.

<b>30</b>	Both fractions circled as shown: $\frac{1}{2}$ $\frac{1}{3}$ $\frac{2}{4}$ $\frac{3}{4}$	<b>1m</b>	Accept any other clear way of indicating the correct fractions.  <b>Do not</b> award the mark if other fractions are indicated unless it is clear that the correct two fractions are the pupil's final choice.
<b>Commentary for question 30:</b> The only pair of equivalent fractions key stage 1 pupils are expected to recognise is $\frac{1}{2}$ and $\frac{2}{4}$ (2F2).
