

Probability - Questions

June 2017 Mathematics Advanced Paper 1: Statistics and Mechanics 1

1.

3. The Venn diagram shows three events A , B and C , where p , q , r , s and t are probabilities.

$P(A) = 0.5$, $P(B) = 0.6$ and $P(C) = 0.25$ and the events B and C are independent.

- (a) Find the value of p and the value of q . (2)
- (b) Find the value of r . (2)
- (c) Hence write down the value of s and the value of t . (2)
- (d) State, giving a reason, whether or not the events A and B are independent. (2)
- (e) Find $P(B | A \cup C)$. (3)
